Title

DispoTop Barbara Jean Watson Stinnette, 10/725,083

Brief Description of Several Views of the Drawings

Figure 1 shows the invention when closed. Folded top serves as a handle. The elastic bottom serves to hold onto the body of the trash can.

Figure 2 shows an upside down view of the invention when opened.

Figure 3 shows a right side up view of the invention when opened for use.

Figures 4 and 5 demonstrate the claim that the "DispoTop" can replace the original lid of a trash can (fig. 4 shows the original top).

Figures 6 and 7 show the ability to conform to any shape of trash can and ability to cover the overflow.

All the figures on page 4 demonstrate some other uses of the invention.

Figure 7 and 8 show how shrubbery can be protected when the "DispoTop" is used as a cover.

Figures 9 and 10 show some types and shapes of other items that the "plastic disposable trash can top" can protect and cover with ease because of its flexibility.
